1-26 CHAMPIONSHIP CONTEST CONCLUDES THURSDAY

Chuck Lohre has been providing a superb report on the 1-26 Association Championship which is available on the [1-26 Association website](#). That is the source from which you want to get the full report on the contest. Our own Team CCSC may have the record for finding the most unusual landing sites. More on that next week.

Steve Statkus prepares for his turn on day 4 of the contest.

SATURDAY REPORT-CHUCK LOHRE

After three sunny hot days of blue sky competition the 1-26 contest declared a rest day on Saturday and club members took advantage of the good weather early in the day. Before the rain came at 4:10 pm a total of 11 flights were made, including two Introductory Flights for guests.

Liz Suda is preparing to attend Youth Education Week 2018. She enjoyed her first glider instructional flight on Saturday with Larry Kirkbride

The bright sun and hot temperatures for the contest provided some of the best soaring seen around CCSC so far this year. Nevertheless, the blue sky kept the thermals a secret so The "Retrieve Desk" has been a busy place mid afternoon each contest day as competitors called in to request assistance. For those who managed to land at an airport a tow plane was sent to give them a tow home. For others who landed off-airport arrangements were made to send the glider's own trailer along with a crew to disassemble the glider and load it into the trailer.

SPECIAL MEETING OF SHAREHOLDERS: JUNE 2, 2018, AT 9:30 AM

Several years ago the date of the annual meeting was changed to the second Wednesday in April in hopes that more participation in the meeting could be achieved because of the strong participation in Wednesday flying. That change may have worked initially, but in recent years participation has declined so low that it is not healthy for a well-run corporation. Consequently, at the recent Annual Meeting of Shareholders a motion was passed to "Hold a Special Meeting of Share Owners on June 2 at 9:30AM at the Clubhouse to consider a change to the Code of Regulations relative to the Annual Meeting date."

The reason that it is necessary to go through the formal process of approving this change at a Special Meeting of Shareholders is that the Code of Regulations which governs the Soaring Society of Dayton, Inc. dba Caesar Creek Soaring Club of Ohio as adopted August 1, 2015, specifies the date for the annual meeting and the Code of Regulations can only be amended by vote of the shareholders. Each shareholder should have received notification about this meeting and a proxy ballot. If you are a shareholder and will not be able to attend the meeting please complete and return the proxy ballot.

In recent months there has been a reasonable amount of member involvement in Board of Director meetings which are held the first Saturday of each month. Consequently, the thought is to combine the Shareholders Annual Meeting with a regularly scheduled BOD meeting in hopes that participation will increase. The proposed wording change to the Code of Regulations is as follows:

CURRENT WORDING

ARTICLE V - Meetings

Section 1 – Annual Meeting of the Shareholders

The Annual meeting of the shareholders of the Club shall be held on the second Wednesday in April of each year at the time and place designated in the corresponding notice.

PROPOSED NEW WORDING

ARTICLE V - Meetings

Section 1 – Annual Meeting of the Shareholders

The Annual meeting of the shareholders of the Club shall be held on the first Saturday in April of each year at the time and place designated in the corresponding notice.

BRONZE BADGE QUESTIONS OF THE WEEK

When flying cross country with a specific landing area chosen, an alternate landing area should be within easy reach in case of discovering a hazard as low as:

- a) 500 - 1000 AGL
- b) 1200 - 1500 AGL
- c) 2000 - 2500 AGL
- d) 3000 AGL and above

Prior to takeoff on a cross country flight, the altimeter should read

- a) zero
- b) field elevation
- c) pressure altitude setting
- d) density altitude setting

During a cross country flight the altimeter should read height above

- a) ground level
- b) destination airport
- c) departure airport
- d) sea level

See the SSF [Study Guide](#) for a practice test with all the questions.

HELP FINDING SOMEONE TO SWAP CREW DAY ASSIGNMENTS

A web-based process for facilitating swapping crew day assignments was announced in the 2/21/2017 Frequent Flyer along with instructions for using the system. This process is intended to help members find another member who will agree to swap crew duties for one specific set of dates. It is **not** for getting reassigned to a different crew for an indefinite period. Mark Miller is now the person who oversees crew assignments, so Mark is the one to whom you need to speak about a long term change.

Remember that **UOP 2.2 CREW MEMBER DUTIES** states: "All crew members are to report for duty at 9:30 AM and work until released by the Crew Chief. Each crew member is personally responsible for arranging for a qualified substitute in case of his or her absence. Scheduled crew members are expected to be present for each of their scheduled crew days regardless of flying conditions." This new process does not relieve any crew member from the responsibility for arranging for a qualified substitute and informing the crew chief; rather it is intended to help accomplish that task. As of 4:00 pm on 5/29/2018 there is one request for a member to swap or substitute a crew day.
